Bcc: Nelson.Russell@EPA.GOV, Philip Crocker/R6/USEPA/US@EPA, Bira.Mike@EPA.GOV

James -

Attached is the application for the N-Steps and the scope of work that I developed that was scaled back as the proof of concept. I will also be talking again with Katherine Dowell regarding funding with the hope that we can cobble together sufficient funds from both sources to complete the nutrient translator development. As mentioned, both sources of funds are in the form of contractor support using an existing open task order on an EPA contract with Tetra Tech.

Request for N-STEP5 Support_v2.docx TMDL Dedicated Proposal for Nutrients in NM 2012.docx

I will call next week to talk further about the application with the goal of getting it submitted by the end of the month to Jacque Oliver.

Stay warm.
